

FUEL EFFICIENCY TIPS FOR CARS

25%

Keep your tank filled above one quarter of the total volume

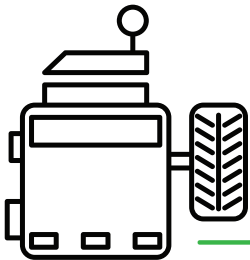

Always fill your tank from a trusted pump that provides RON 92 petrol or higher

30 psi

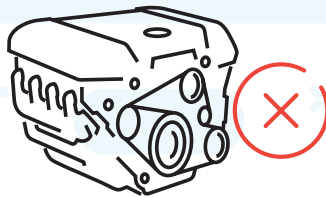

Always keep your tires inflated to 30 psi or whatever spec the dealer recommends

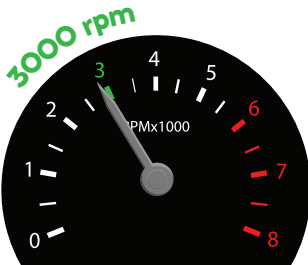

Regularly check your wheel balancing and alignment

Only use the dealer recommended tire size

Do not rev your engine unnecessarily

Don't drive with a "heavy foot" try limiting your RPMs to under **3000** where possible

Use original oil only

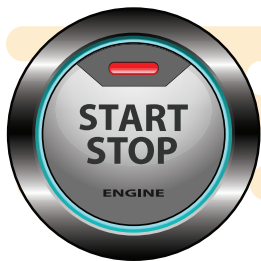

Try turning your AC on only when your car reaches a **steady speed**

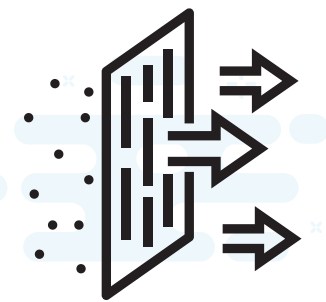

FUEL EFFICIENCY TIPS FOR CARS

Keep your speed steady.
Try limiting to 60km/h on local roads
and 100km/h on highways

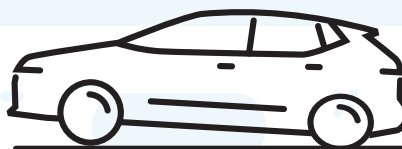

Turn your engine off
when not in use,
try to avoid
unnecessary
idling

Keep your air
filter clean

Change your engine
oil and filters regularly

Do not overload
your vehicle

Try plotting your course
via smooth roads only

Make sure you
fuel tank cap is
properly sealed

Drive with
closed windows
to reduce drag
and increase
fuel efficiency
